

OZONE GENERATORS OZ

High power portable air / air Argolab ozonizers for home and professional use, equipped with multifunction digital timer.

They guarantee the natural inactivation of viruses, bacteria, mites, molds, spores, fungi, parasites and bad smells thanks to the hyper-oxidizing capacity of Ozone (3000 times more oxidizing than chlorine). Ozone, thanks to its instability, within a short time returns to the most stable state (O₂) without leaving traces of toxins.

ARGO LAB

O₃-10 | O₃-30

Ozone emission	10g/h	30g/h
Ventilation efficiency	150m ²	320m ²
Ozone generator	Corona Discharge Technology	
Delay start	Daily/weekly programs or continuous mode	
Working temperature	T:0°C+40°C - RH<70%	
Power Supply	220-240V-50Hz	
Nominal wattage	130W	250W
Dimensions	380*170*260mm	440*220*305mm
Weight	4Kg	6Kg
Conformity	CE	CE
p/n	41400103	41400203
Price (Excl. VAT)	€ 432,00	€ 730,00

Argolab ozone generators are supplied with 2 rapid tests for a qualitative analysis of the presence of bacteria / Virus pre and post treatment.
